

Jackpot Token requirements:

Hello!

Even though the smart contract is 99% ready, I will write here all the requirements I need:

1)name- Jackpot

2)symbol- 777

3)total supply- 777,777,777

4)there will NOT be reflections.

5)there will NOT be burn

6)the slippage fee on pancakeswap will be 18% (I am changing from 16)

\* liquidity 5%

\* marketing wallet 4%

\*jackpotdaily 4%

\*jackpotweekly 1%

\*jackpotmonthly 1%

\*dev1 1.2%

\*dev2 0.8%

\*dev3 0.34%

\*dev4 0.33%

\*dev5 0.33%

7)the think you should change- the "rewards" for the marjeting,jackpots and devs should be in busd, it means that every buy or sell the wallets get filled with busd.

If you have any questions feel free to ask

Thanks and looking forward to work with you on a regular basis!
